(54)COMMODITY MANAGEMENT SYSTEM AND METHOD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide commodity management system/method, by which a consumer and a maker can appropriately and speedily cooperate on the recycle of a commodity, secure and optimum recycle can be performed and a company image can be improved while a sure system to the improvement of environment is secured.

SOLUTION: Designated information as to whether or not the recycle of the commodity is to be performed on a consumer side is inputted to the personal computer 11 of a terminal together with commodity information. Then, the recycle management processing corresponding to the inputted designation information and commodity information is performed in the server 13 of a processor.

LEGAL STATUS

[Date of request for examination] 16.03.2001

[Date of sending the examiner's decision of rejection] 21.10.2003

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
